Half Steps and Whole Steps I

The **half step** (H) is the smallest interval used in traditional Western music. The piano keyboard is arranged in half steps; the distance between two adjacent keys on the piano is a half step.

The **whole step** (W) is an interval made by combining two half steps.

Using the keyboards below, write the interval (whole step or half step) that is created by the Os.

1. _____________

2. _____________

3. _____________

4. _____________

5. _____________

6. _____________
